Comrades!

In the past period we attained truly great victories and successes in the revolutionary struggle and constructive work. But our cause has not yet been brought to completion and we are still on the road of revolution and construction.

We should continue to vigorously advance toward a new victory, not resting content with victory or yielding to difficulties. **(Loud applause.)**

As those struggling for revolution, we should always live in a revolutionary trait of life. All our Party members and working people should continue to struggle in a strained and mobilized posture and dash forward at a faster tempo, with great hope for a brighter morrow and confidence in victory, to carry out the militant tasks set forth by the Party Congress. **(Thunderous applause.)**

In implementing the resolutions of the Party Congress, it is necessary for us first of all to strengthen the Party and firmly build up the revolutionary ranks. The unitary ideological system should be thoroughly established in the Party, and, on this basis, the unity of the Party ranks in ideology and will should be firmly ensured and the masses of the people be rallied closer around the Party. **(Loud applause.)**

The ideological revolution should be stepped up to train all the working people as ardent revolutionaries and true builders of socialism and communism and further expedite the course of the revolutionization and working-classization of the whole society. **(Loud applause.)**

In this way we should successfully carry out the Six-Year Plan, thereby consolidating and developing the achievements in industrialization, solidifying still further the material and technical foundations of socialism and freeing the working people from hard and arduous labour in all the domains of the national economy. **(Loud applause.)**

We should continue to devote great force to reinforcing defence capacity along with socialist economic construction and make full preparations to cope with a war.

The whole Party and the entire people should repudiate a pacifistic mood and the revisionist tendency of fearing a war and thoroughly arm themselves with the militant mettle and revolutionary spirit to fight the enemy valiantly if he dare to attack us with force of arms. **(Loud applause.)**

The self-defensive military line of the Party should be thoroughly carried through so that the all-people and all-nation defence system can be established more firmly and the whole country be turned into an impregnable fortress. **(Loud applause.)**

By intensifying the struggle for increased production and economy in all the domains and all the units, we should secure more material reserves and make preparations for satisfactorily ensuring war-time production.

It is true that the tasks confronting us are arduous and huge and our struggle remains tough. There will still be a lot of difficulties in the way of our advance and we will have to undergo trials.

But we have all the conditions and possibilities for overcoming all these difficulties and trials and winning a new victory.

The lines and policies of our Party are correct and they light the path ahead of us. **(Thunderous applause.)** Our people trust the Party and are firmly united around it and are vigorously fighting on, going through fire and water, along the road indicated by the Party. **(Loud applause.)**

Comrades!

After the Congress, comrades delegates will return to their posts and enter upon a new struggle for carrying out the resolutions of the Congress. You who represented all our Party members, and workers, peasants and working intellectuals at this Congress, bear a particularly heavy responsibility in the struggle for fulfilling the resolutions of the Congress.

I firmly believe that you comrades will in the future, too, as in the past, staunchly defend and carry through to the last the lines and policies of the Party, firmly arm the Party members and working people with the unitary ideology of the Party and organize and mobilize them, thereby making an active contribution to pushing ahead with the revolutionary struggle and constructive work. **(Prolonged thunderous applause.)**

All should advance energetically, rallied close around the Central Committee of the Party, holding aloft the revolutionary banner of the *Juche* idea of our Party, the banner of Marxism-Leninism, and thereby accelerate the nation-wide victory of the revolution and win the complete victory of socialism. **(Prolonged thunderous applause.)**

World Press Carries Comrade KIM IL SUNG's Historic Report to the Fifth Congress of the WPK

Many Countries Warmly Hail the Fifth Congress of the Workers' Party of Korea

Papers in various countries are giving large spaces to the Fifth Congress of the glorious Workers' Party of Korea founded, consolidated and developed by Comrade Kim Il Sung, the great Leader of the 40 million Korean people and outstanding Marxist-Leninist, as well as to his report on the work of the Party Central Committee to the Congress, according to foreign press.

In Japan: The November 3 issue of the **Akahata**, organ of the Japan Communist Party, respectfully carrying a portrait of Marshal Kim Il Sung, General Secretary of the Central Committee of the Workers' Party of Korea, front-paged an article communicating the news of the opening of the Party Congress under the headline "The Fifth Congress of the Workers' Party of Korea Opens; General Secretary Kim Il Sung Delivers the Report on the Work of the Party Central Committee."

The paper pointed out that the Fifth Congress of the WPK opened on November 2 with the opening address of Marshal Kim Il Sung, General Secretary of the Central Committee of the Workers' Party of Korea, and introduced its agenda.

The paper carried the summary of Marshal Kim Il Sung's report on the work of the Party Central Committee in its first and third pages.

Especially, it gave detailed accounts of the parts of the report dealing with the fulfilment of the Seven-Year Plan and with the need of fighting against U.S. imperialism and Japanese militarism.

The paper, in its November 4 issue, wrote that all the attendants of the Congress rose to their feet and broke into thunderous, enthusiastic applause when Marshal Kim Il Sung declared at the Congress that **"The greatest achievement made in socialist construction during the period under review is that our country has been converted into a socialist industrial state as a result of the splendid fulfilment of the historic task of socialist industrialization."**

The paper underscored that Korea has turned into a developed industrial state in so a short span of time following the termination of the Korean war and that industrial production grew at a marvellous rate of 19.1 per cent on an annual average over the whole period of industrialization from 1957 to 1970.

The Korean people take pride in this achievement as the "victory of the *Juche* idea," the paper noted, and highlighted the following quotation from the report of Premier Kim Il Sung:

"Establishing *Juche* means, in a nutshell, having the attitude of master towards the revolution and construction in one's own country. This means holding fast to the independent stand of rejecting dependence on others and using one's own brains, believing in one's own strength and displaying the revolutionary spirit of self-reliance, and thus solving one's own problems for oneself on one's own responsibility under all circumstances, and it means adhering to the creative stand of opposing dogmatism and applying the universal principles of Marxism-Leninism and the experiences of other countries to suit the historical conditions and national peculiarities of one's own country."

The paper pointed to the fact that the Korean people built an independent, socialist national economy by embodying the *Juche* idea in the economic field, and wrote that the Fifth Congress of the Workers' Party of Korea was to discuss the basic task of the Six-Year Plan for the Development of the National Economy, the task to further cement the material and technical foundations of socialism and free the working people from arduous labour in all fields of the national economy, by consolidating and carrying forward the successes gained in socialist industrialization and advancing the technical revolution onto a new, higher plane.

Great Juche Idea of the Leader—Most Correct Guiding Idea Firmly Guaranteeing Victory in Revolution and Construction

Repercussions of Report of Comrade KIM IL SUNG Made at Party Congress among Working People in Different Parts of the Country

Workers of the factory where Comrade Shin Je Chon works are reading the closing speech of Comrade Kim Il Sung made at the Fifth Party Congress with unbounded emotion and joy at the news of the election of the respected and beloved Leader Comrade Kim Il Sung as General Secretary of the Party Central Committee

The workers, technicians and office employees of the Chollima Ryongsong Machine Plant who fulfilled with credit their huge assignments for the Seven-Year Plan and made a report of loyalty to the respected and beloved Leader Comrade Kim Il Sung are now seized with boundless emotion and excitement at the programmatic report delivered by him to the Fifth Congress of the Workers' Party of Korea and are filled with a revolutionary zeal to march ahead more vigorously along one road of victory indicated by him.

Comrade Han Sok Ju, a work-team leader of the Chollima large-size machinery workshop, said in an excited tone:

In his report to the current Party Congress, Comrade Kim Il Sung, the great Leader of the 40 million Korean people, declared that our country has been converted into a socialist industrial state.

The conversion of our country into a socialist industrial state—this is a brilliant fruition of the great *Juche* idea of the respected and beloved Leader Comrade Kim Il Sung and our Party's line of industrialization, its embodiment, and the result of his wise leadership.

Comrade Kim Il Sung, the great Leader of revolution, said as follows:

"Under the revolutionary banner of the *Juche* idea our country has turned into a socialist state with complete political sovereignty, solid independent national economy, strong self-defence power and brilliant national culture. The establishment of *Juche* has also enabled us to contribute better to the international revolutionary cause today."

In future, we will equip ourselves more thoroughly with the *Juche* idea, the great revolutionary idea of the Leader, and carry out with flying colours the heavy and honourable tasks assigned to the workers in the field of machine-building industry during the Six-Year Plan, the tasks set forth by him in his report to the current Party Congress. Especially, we, bearing deep in mind the importance of the tasks assigned to our factory, a "mother factory," will rapidly increase the production of various machines and equipment and thereby positively contribute to fulfilling the three major tasks of technical revolution put forward by the Leader.

Comrade Sin Myong Chan, vice-chief of a workshop at this factory, said that the more he reads the report of the respected and beloved Leader made at the Fifth Party Congress, the more deeply he grasps the great vitality of the *Juche* idea of the Leader which runs through the report.

He then added:

Right after the cease-fire our factory produced simple accessories. But today it has grown and developed into a powerful machine-building industrial base which turns out a wide range of large-size machines and plants for modern factories including 6,000-ton press, large-size thermal power turbines and equipment for the vinalon factory and the anthracite gasification factory.

We have become deeply convinced through our practical experience that there can be nothing impossible for us when we thoroughly equip ourselves with the great *Juche* idea of the respected and beloved Leader Comrade Kim Il Sung and the revolutionary spirit of self-reliance.

The three major tasks of technical revolution advanced by the Leader at the current historic Fifth Party Congress are the most honourable tasks to free the working people from arduous labour and speed up the complete victory of socialism.

Whole-heartedly upholding the teaching of the Leader we will accelerate our own revolutionization and working-classization and always keep a tense and mobilized posture and thereby take the lead in the carrying out of the programmatic tasks set forth by him.

The scientists of the Academy of Social Sciences are also enthusiastically supporting and welcoming the report of the respected and beloved Leader Comrade Kim Il Sung. They are deeply studying the profound ideas and theories contained in the report to fully grasp them, renewing their determination to carry out to the end the honourable revolutionary tasks set out in his report.

Paek Jae Wuk, deputy head of the Philosophy Research Institute, said:

In his report the Leader perfectly elucidated again the essence of the great *Juche* idea, the core of the unitary ideology of our Party, and confirmed the indestructible vitality of this idea.

His *Juche* idea, a concentric embodiment of the aspiration of the revolutionary peoples, is a great idea which is of epoch-making significance in the development of Marxism-Leninism and is the most correct guiding idea which firmly guarantees the success in the revolutionary struggle and constructive work.

His *Juche* idea has been tested and its correctness proved in the revolutionary practice of the peoples of our country and the world and it is displaying ever-greater vitality as the days go by.

We scientists will firmly equip ourselves with the *Juche* idea, the great revolutionary idea of the Leader, and thoroughly carry out the revolutionary tasks set forth by him and thus further consolidate and develop our socialist system, achieve the complete victory of socialism and hasten the nation-wide victory of the Korean revolution.

Kim Chol Sik, deputy head of the Research Institute for Economics, said that he, studying every word of the report with reverence, felt deeper in his heart a boundless pride, national pride in being a scientist having Comrade Kim Il Sung as the great Leader and making revolution under his sagacious leadership.

He continued:

Referring to the task set before social scientists, the Leader said in his report as follows:

"In the field of social science, it is necessary to theoretically generalize the achievements and rich experiences gained by our people in their revolutionary struggle and constructive work and demonstrate the correctness of our Party's lines and policies with more profundity."

To accomplish with credit this honourable task put forth by the Leader, we will firmly arm ourselves with the great *Juche* idea, the core of the unitary ideology of our Party, and thoroughly revolutionize and working-classize ourselves, first of all.

We will devote all our energies and wisdom to the work of writing more, better articles explaining and propagating the greatness and correctness of the original ideas, theories and lines of the respected and beloved Leader who scientifically elucidated the important theoretical and practical problems concerning socialist economic construction.

Having read the historic report made by the respected and beloved Leader Comrade Kim Il Sung at the Fifth Congress of our Party, men of the Korean People's Army are also wrapped in unbounded emotion and excitement and making a firm resolve to faithfully execute the militant tasks given by the Leader.

(Continued from Page 6)

Comrades Pak Guk Dong and Kim Chang Su of the Red Flag unit to which Comrade Choe Gong Suk belongs said:

The People's Army fully equipped with the Party's unitary ideology has turned into an a-match-for-a-hundred cadre army more fully prepared politically and ideologically and in military technique, into an invincible revolutionary armed force with powerful offensive and defensive means by splendidly carrying through the self-defensive line of our Party, an embodiment of the great *Juche* idea of the respected and beloved Leader.

We will master the art of war suited to the actual conditions of our country by thoroughly embodying the great *Juche* idea of the respected and beloved Leader Marshal Kim Il Sung in the combat training and more fully prepare ourselves to reliably discharge any difficult combat tasks by skillfully employing mountain warfare and night actions and properly combining large-unit operations with small-unit operations and regular army warfare with guerilla warfare and thereby remain single-heartedly loyal to the Leader.

Should the U.S. imperialists and their stooges venture to provoke another war heedless of our repeated warnings, we will fight gallantly against the aggressors and wipe them out to the last man.

What a great change and pride it is! My heart swells with infinite national pride, honour and happiness of being an overseas citizen of the Democratic People's Republic of Korea, a powerful and dignified socialist industrial state which the world people envy.

Working People Raise Higher the Flame of the Great Revolutionary Upsurge to Fulfil the Programmatic Task Set Forth by the Leader

The report on the work of the Party Central Committee made by the respected and beloved Leader Comrade Kim Il Sung at the historic Fifth Congress of the Workers' Party of Korea is forcefully rousing the entire Korean people to a new, greater victory, setting their hearts aflame with infinite emotion and joy.

Throughout the country—all factories, enterprises and co-operative fields, towns and villages—the working people are creating new records and effecting innovations in production and construction, engraving in their minds paragraph by paragraph the report of the Leader which summed up the great victories achieved in the building of our Party and the development of the revolution since the Fourth Congress of the Party to this date and brightly illumined the road ahead of our revolution.

The flames of the innovations are burning also at the Hungnam Fertilizer Factory, one of the leading bases for chemicalization of agriculture in our country.

Seized with the feelings of infinite loyalty to the Leader, the workers are raising these days the daily output of chemical fertilizers by 10 per cent as against the daily average of the previous month, by boosting the utilization of the equipment and working it at full capacity in the spirit in which they scaled the height of chemical fertilizers of the Seven-Year Plan.

The members of the Chollima Chong Pyo Jing workteam of the synthesizing shop in particular effected an innovation of surpassing the previous record 1.3 times in per hour gas production by strictly observing the regulations of operation at each kiln and ensuring temperature and humidity properly.

The workers of the synthesizing shop who have risen up in a struggle for increased production considerably increased the daily output of the semi-finished goods by continuously increasing the speed of gas circulation while operating nearly twice as many machines as hitherto.

The flame of innovation is also fiercely flaring up in the finished goods production processes. Thanks to the devoted labour striving of the chemical workers who have risen up in the struggle to powerfully support the socialist countryside upholding the programmatic report of the respected and beloved Leader, high quality fertilizers are pouring out like a waterfall every day.

The weavers of the August Textile Mill, too, scored a brilliant success in fulfilling their daily assignments.

They are gaining new strength and courage from the historic report of the respected and beloved Leader Comrade Kim Il Sung by deeply studying it and are filled with the firm determination to carry out without fail the prospective Six-Year Plan put forth by him.

The head of a workteam of yarn twisting shop No. 1 said: The prospective Six-Year Plan set forth by the Leader boundlessly stirs us weavers and the entire people. The implementation of the prospective Six-Year Plan will place our country on a world level in the per capita textile output and bring about a radical change in the qualitative composition of fabrics. What a bright prospect it is!

Therefore, we weavers don't feel hard at all no matter how much we work. The more we work, the greater joy we feel.

This is not their sentiments alone.

The weavers of the special goods shop which received the Prize of Honour of Chollima resolved to carry out this year's plan at 500 per cent by the end of the year, tending 60 more looms, and are waging a collective innovation movement, infinitely encouraged by the programmatic report of Comrade Premier. Weavers of the 1st and 3rd weaving shops are also fulfilling their daily plans at more than 200 per cent and all the machines are working at full capacity in yarn twisting and weaving shops.

Students of Five Universities in Seoul Issue Joint Declaration on 41st Anniv. of Kwangju Student Movement,

Condemning Japanese Militarist Reinvasion

The students of five universities in Seoul issued a joint declaration "Our Shout" on November 3, the 41st anniversary of the Kwangju student movement, according to a radio report from Seoul.

In the joint declaration the students exposed the naked reaggression of the Japanese militarists against South Korea and pointed out that the aggressors revived under the patronage of U.S. imperialism "have not given up their wild ambition to dominate South Korea under the spurious name of economic cooperation."

They also condemned the Pak Jung Hi puppet clique for their fascist repression of schools and strongly demanded "freedom of criticism and learning" of students.

Before their publication of the joint declaration, the students of the five universities held meetings and discussions respectively in their school campus and recalled the lofty aspiration of the Korean students and people who rose up in the nation-wide massive struggle against the colonial rule of the brigandish Japanese imperialists and their slavish education system on November 3, 1929, 41 years ago, and unanimously confirmed their determination to check and frustrate the reaggression of Japanese militarism revived under the wing of U.S. imperialism and the treacherous manoeuvrings of the traitorous Pak Jung Hi clique, dual stooges, who are ushering in the Japanese militarists.

Announcement

of the Ministry of Public Security of the Democratic People's Republic of Korea

On Sending Back Japanese Ship "Mitsumaru" and Its Crewmen That Illegally Intruded into the Territorial Waters of Our Country

The Ministry of Public Security of the Democratic People's Republic of Korea detained on September 8, 1970, a Japanese ship "Mitsumaru," which had illegally intruded deep into the territorial waters of our country up to a point 39°51'N. and 127°53'E. and its crewmen and made an appropriate investigation.

According to the investigation, it was confirmed that the "Mitsumaru" intentionally intruded into the territorial waters of our country with a view to carrying on espionage and hostile acts as part of the preparations of the U.S. imperialists and the Japanese militarists for an aggressive war against the northern half of the Republic and skipper Shokichi Hamano and a crewman, as spies of the espionage organ of U.S. imperialism and Japanese militarism, have long committed systematically espionage acts against the Democratic People's Republic of Korea, spying on our state and military secrets while frequenting our country many times.

They fully admitted their espionage acts, and their crimes were confirmed by scientific evidences

The espionage act of the "Mitsumaru" against our country clearly shows how frantically the U.S. imperialists and Japanese militarists are making new war preparations for invading the Democratic People's Republic of Korea.

While continuously committing military provocations along the Military Demarcation Line and coasts of our country almost every day, the U.S. imperialists not only infiltrate armed spy ships and spy bandits but also persistently perpetrate espionage and hostile acts against our country by using even the Japanese militarists.

The Korean people resolutely condemn this criminal act of the U.S. imperialists and the Japanese militarists.

The crewmen of the "Mitsumaru" who encroached upon the sovereignty of our country and committed espionage acts must be duly meted out severe punishment by the relevant law of our country.

The Ministry of Public Security of the Democratic People's Republic of Korea decided to punish by the relevant law of the Democratic People's Republic of Korea skipper Shokichi Hamano and a crewman who, as spies on the payroll of the espionage organ of U.S. imperialism and Japanese militarism, have systematically perpetrated espionage acts against our country.

Chief engineer Hatsuichi Sakashida and other crewmen, as criminals who joined them in their criminal acts and actively cooperated with them in their espionage activities, deserve punishment. It was decided, however, to leniently pardon them and send them back together with the ship, taking into consideration the fact that responsibility for their criminal act does not rest with them alone but also with the U.S. imperialists and the Japanese militarists who masterminded their crimes and they pledged themselves not to commit such criminal act again and the situation of their families.

This is a lenient step taken by the Government of the Democratic People's Republic of Korea which is consistently and tirelessly striving to develop the friendly relations between the peoples of Korea and Japan.

If the reactionary Sato government of Japan misusing this lenient step of the Democratic People's Republic of Korea, again commits hostile acts against our country it will be held entirely responsible for all the consequences arising therefrom.

The "Mitsumaru" which has been detained and the crewmen whose return was decided upon will be sent back home in a few days.

Meanwhile, these resolutions were distributed on November 7 as an official document to the representatives of different countries on the eve of the discussion of the question on Korea at the Political Committee of the United Nations General Assembly.

The resolution on the complete withdrawal of the U.S. imperialist aggressor troops from South Korea demanded that the U.S. imperialist aggressor troops and all other foreign troops and their arms should be withdrawn from South Korea within six months from its adoption at the U.N. General Assembly.

Aggressive Policy of U.S. Imperialism against the Korean People Strongly Denounced

Delegation of Mauritius-Korea Friendship Association Which Has Been to Our Country Thrusts Letter of Protest at U.S. Imperialist Ambassador in Its Country

The delegation of the Mauritius-Korea Friendship Association which had visited our country, thrust a letter of protest on September 19 at the U.S. imperialist ambassador in Mauritius, denouncing the aggressive policy of U.S. imperialism against the Korean people, according to a report from Port Louis.

The letter of protest bitterly condemned the U.S. imperialists who are illegally occupying South Korea under the U.N. signboard and exposed their bestial crime of perpetrating vicious aggressive acts against the Korean people in crude violation of the Armistice Agreement.

The letter of protest said that the U.S. imperialists, after illegally occupying South Korea, have turned it into a living hell and are torturing and murdering a large number of patriots.

The letter of protest stressed: The U.S. imperialists are reviving Japanese militarism, outrageously violating the Potsdam Agreement.

This is a grave menace to world peace.

The Japanese militarists are making desperate attempts to realize their old dream of the "Greater East Asia Co-Prosperity Sphere" with the support of U.S. imperialism. This, after all, leads the Asian, African and Latin American peoples to renew their firm determination to wipe off the face of the earth imperialism headed by U.S. imperialism.

The Central Committee of the Mauritius-Korea Friendship Association sternly protests against and denounces the aggressive plan of the U.S. imperialists who are shoring up the Pak Jung Hi puppet clique, and the reactionary and aggressive treaty concluded between the United States and the Japanese reactionary government headed by the reactionary Sato clique for provoking a new armed invasion against the Democratic People's Republic of Korea. Mid-term Election Returns, Proof of Nixon Clique's Political Bankruptcy

The mid-term election to Congress in the United States shows that the American working people are greatly discontented with the daily intensifying exploitation and pillage by the reactionary ruling circles and their arbitrariness and that the contradictions between the broad masses of the people and the reactionary ruling circles are growing acute.

The election returns also indicate that the reactionary and anti-popular home and foreign policy of the Nixon clique and, especially, its policies of aggression and war against other peoples are rejected by the masses of the American people and the Nixon clique is being further isolated with each passing day, and is racing headlong to political bankruptcy.

The election returns also testify to the fact that no crafty and vicious election ruses of the Nixon clique can ever appease or suppress the voters.

The defeat of the Nixon clique in Congress mid-term election is a natural outcome of its reactionary and aggressive policies and its suppression of the masses of the people.

The U.S. imperialists headed by Nixon the rascal are running wild to provoke a new war of aggression in Korea, expanding the war of aggression in Indochina, leading the situation in the Near and Middle East to a more acute strain and stepping up aggressive manoeuvres everywhere in the world.

Such policies of the Nixon clique for aggression and war have worsened the U.S. political, economic and social disorder and crisis. Unable to bear the harsh exploitation and pillage by the reactionary ruling circles and their arbitrariness, broad sections of the American working people are rising up more vehemently in massive struggles for the right to existence, democracy and peace and against the war of aggression.

The masses of the American people brand Nixon the rascal as "fascist," "murderer," "war incendiary" and "pig" and shout "throw him into the garbage bin!"

It goes without saying that Congress mid-term election indicating the defeat of the Nixon clique reflects such political situation in the United States.

Comrade Kim Il Sung, the respected and beloved Leader, taught us as follows:

"The anti-war movement of people has assumed a mass character in the United States itself."

The internal and external isolation and predicament of the Nixon clique are being aggravated with each passing day by its reactionary and aggressive policies. U.S. imperialism is being battered from within and without, which hastens its decline and ruin. The more desperately the Nixon clique resort to the policies of aggression and war, the earlier the doom of the beasts will be.
